

## Which birds visit your garden or balcony?

Lots of countries hold an annual bird count. But I want to find out which birds visit my garden. If you'd like to know which bird species you have in your garden too, you can use this page to keep track of them. Pour yourself a cup of tea or coffee and settle down by the window to see which birds you can spot flying around outside. I can't wait to find out how many I see.
